

Bone Band Saw

Model SE 1830

Machine with a free-standing aluminum anodized structure for easy cleaning. The machine is equipped with all safety systems required by European Directives:

- ◆ Micro switch on machine closure cover;
- ◆ Motor brake for immediate halting of blade;
- ◆ Low-voltage controls;
- ◆ Emergency stop button with reset.

A variety of accessories are provided to ensure easy use, including product thrust lever and portioning fence for regulating cutting thickness, worktable and blade guide in stainless steel for regulating cutting height, blade tension knob to allow rapid blade changes.

Optional: Stand (base painted)

Technical Information

Model	SE 1830
Power:	0.75kW
